

ELLIOT WAVE

Wave is the theory developed by Ralph Nelson Elliot. This tool will plot Elliot wave retracement and projection.

As per Elliot, scrip always moves in a particular pattern. He found this pattern similar to the movement of waves in the ocean. According to him there are major 8 waves in the up move or down move of the scrip. Elliot Wave tool plots the retracements and projection points of the chart.

How to plot :-

1. Click on the Elliot wave tool.
2. Select UP or DOWN button as per your choice.
3. Mention length of the line you want.
4. Then click on any button of wave you want to plot.
5. Last, select Plot button.
