

PRICE CONVERSION PC

This is price conversion tool. We believe that Price can be converted into time and vice-versa. The same concept is used in this tool. There are three different methods of converting . They are regular, fibbo and square root method. Here We select the highest bar and convert it into PC.

To use this tool:-

- Click on the PC icon.
- PC window with three methods will pop up.
- Click on option you want to use.
- Place the number of lines.
- Lastly, click on the PLOT button.
- PC timelines will appear on the screen.
